

City of Bayreuth Award to Dr.-Ing. Norbert Müller

On the occasion of "Akademische Jahresfeier 2011", Mr. Dr.-Ing. Norbert Müller received the City of Bayreuth Award from Bayreuth's mayor, Dr. Michael Hohl. The research work for his dissertation "Direkte Bestimmung von Koksdepositen auf Festbettkatalysatoren durch elektrische Sensoren (Direct determination of coke deposits on fixed bed catalysts by electrical sensors)" was jointly conducted at the chairs of Prof. Moos and Prof. Jess under a grant of the Deutsche Forschungsgemeinschaft (DFG).

Dr. Müller (2nd from left), Prof. Bormann, president of University of Bayreuth (2nd from right), Mayor of the City of Bayreuth Dr. Hohl (right), and the other two awardees.

Congratulations!

On December 16th, Sebastian Reiß, who is now with Continental Automotive, defended his doctoral thesis about "Direkte Zustandssensorik von Automobilabgaskatalysatoren" ("Direct diagnosis of automotive catalysts").

In front of the BERC logo: Prof. Scheibel, Prof. Fischerauer, Dr. Reiß, Prof. Moos, Prof. Brüggemann.
